

## Dream Team

In a white gold case, The Chapter Two by Maitres du Temps exudes exclusivity from first glance—not surprising considering it was designed by Peter Speake Marin, Roger Dubuis and Daniel Roth. The bi-color silver and 18-karat red gold dial features a ring of Roman numerals, as well as a sub-seconds display and a big date, read by sword-shaped white gold hands. The black anodized aluminum day roller and month roller at the top and bottom of the face give this timepiece its unique character as well as an instantaneous triple calendar display. A hand-sewn alligator strap with 18-karat white gold deployant buckle is affixed to this piece. Price: \$67,500.
